

**RoGO Connects Cellular-Denied Areas**  
Satellite-Enabled Communications Hardware, Custom Comms  
Software, Remote IoT & Predictive Data Analytics Capabilities

## Capability Statement

RoGO Fire LLC, DBA RoGO Communications provides GPS tracking, tactical communications and scene situational awareness data delivery in remote, austere and cellular-denied areas using RoGO's lightweight, portable satellite-enabled DropBlock hardware devices that use special SATCOM data transmission software methods to get Wildland Firefighters Situational Awareness and scene-critical communications quickly when fighting Wildfires that occur in, or cause there to be a cellular-Denied area.

RoGO's mission is to help all First Responders better mitigate disasters like Wildfires, Hurricanes, Earthquakes and Floods faster and safer, and to save more lives by enabling a communicated, coordinated tactical effort among many First Response personnel.

### Services and Products

For Handcrews, Hotshots and equipment: RoGO's DropBlocks provide GPS tracking of crews and equipment, sends local wind speed/direction & RH field information back to the IC, IMET and FBAN, and acts as the data and communications portal between ICP and remote Handcrews.

For Strike Force & Task Force Leaders, RoGO provides a 700kbps full-IP solution so any full IM platform *plus* any fire behavior predictive analysis solution can run in the middle of the woods or in any remote, austere cellular-denied area. Enables full comms & SA with ICP.

### Past & Present Performance

- AZ Dept of Forestry & Fire Management using RoGO's devices for GPS tracking, Wx Reporting and Task Force connectivity
- GPS tracking of Wildland Firefighters & Equip on wildfires in CO, UT, CA, MT & WA
- Arapahoe County Colo OEM - Monitoring Fire Weather conditions continuously 24/7
- 2 Utility Patents cover our 3-part system

### Differentiators

- Special SATCOM signal Data Formatting = more data per Tx = greater bandwidth
- Satellite Data "Parsing Software" sends long data strings over SBD connection
- Predictive Data Analytics
- Personal SATCOM devices up to 700kbps
- Worldwide Comms & Data Anywhere
- Small, Lightweight, Portable Devices

### NAICS Codes:

115310-Support Activities for Forestry    334220-Wireless Communications Equipment Manufacturing  
334290-Other Communications Equipment Manufacturing  
423690-Other Electronics Equipment Merchants  
517410-Satellite Telecommunications    541519-Computer Related Services

### General RoGO Company Information

Registered Company Name: RoGO Fire, LLC., DBA RoGO Communications, LLC

- UEI: L5DLGVET3FA5    • DUNS: 116909874    • CAGE code: 87QV6    • Year Incorporated: 2018
- Web: RoGoCom.com    • Phone: 719-800-7646    • State of Incorp: CO    • Email: info@rogofire.com
- Socio-Economic Applications Submitted: SDB, DBE, 8(a)
- RoGO Accepts Master Card, Visa and Discover credit cards and Procurement cards
